September 2023

The preparation of the document was financed cooperatively by the Federal Highway Administration, the Federal Transit Administration, the West Virginia Department of Transportation, the Ohio Department of Transportation and the KYOVA Interstate Planning Commission. This report does not constitute a standard, specification or regulation.

KYOVA Annual Listing of Federally Obligated Projects July 1, 2022 to June 30, 2023

The Infrastructure Investment and Jobs Act (IIJA) outlines the requirement for Metropolitan Planning Organizations (MPOs) to publicize an annual listing of obligated projects for which funds have been given in the preceding year, including a listing of pedestrian and bicycle projects.

"An annual listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which Federal funds have been obligated in the preceding year shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. The listing shall be consistent with the categories identified in the Transportation Improvement Program (TIP)."

This report is published in response to the above-mentioned criteria by listing all federally funded transportation projects (highway and transit) in the MPO's urbanized area that were obtained during the State fiscal year (FY) from July 1, 2022 to June 30, 2023. The work obligated refers to the federal government's financial commitment to pay or reimburse the lead agency for the federal share of a project's cost. Obligation in no way refers to the expenditure or project completion; but only that the specific project has been marked and approved for federal reimbursement.

The following report details highway and transit projects with obligated federal funds in Cabell and Wayne Counties, West Virginia and Lawrence County, Ohio. This report documents federal funds obligated by the WV Department of Transportation, Ohio Department of Transportation, local public agencies, Lawrence County Transit, and the Tri-State Transit Authority.

The information provided is consistent with how highway and transit projects are listed in the KYOVA TIP; i.e. projects are shown with a project identification number, project name, location, description of project, and funding amounts and other related categories. This list provides information concerning the amount of federal funds that were authorized during fiscal year 2023 and "other" funding amounts during fiscal year 2023, as well as previous funds authorized.

An obligation is the federal government's legal commitment to pay the federal share of a project's cost, and has been authorized by a federal agency, such as the Federal Highway Administration (FHWA) or the Federal Transit Administration (FTA). Obligated projects are not necessarily initiated or completed in the programmed year, and the amount of the obligation may not necessarily equal the total cost of the project. For FTA projects, obligations occur when the FTA grant is awarded. For FHWA projects, obligations occur when a project agreement is executed and the state/grantee requests that the funds be obligated.

This report's purpose, other than that of listing federally obligated transportation projects, is to provide an increased transparency of government spending on transportation projects and strategies to state and local officials, and to the general public. In order to realize this federal objective, a proactive approach to sharing information with the public in a user-friendly format has been provided in this report.
