Jesse Binau
Clune Consulting Services
PO Box 103
Minster, OH 45865

Dear Mr. Binau,

I have reviewed the Natural Heritage Database for the Ohio River Bridge Study project area, including a one mile radius, in Rome Township, Lawrence County, Ohio. The numbers on the list below correspond to the areas marked on the accompanying map. Common name, scientific name and status are given for each species.

1. *Ripariosida hermaphrodita* – Virginia-mallow, potentially threatened
2. *Spermacoce glabra* – Smooth Buttonweed, potentially threatened
3. *Heteranthera reniformis* – Mud-plantain, endangered

We are unaware of any unique ecological sites, geologic features, animal assemblages, scenic rivers, state wildlife areas, nature preserves, parks or forests, national wildlife refuges, parks or forests, or other protected natural areas within a one mile radius of the project area.

Our inventory program has not completely surveyed Ohio and relies on information supplied by many individuals and organizations. Therefore, a lack of records for any particular area is not a statement that rare species or unique features are absent from that area. This letter only represents a review of rare species and natural features data within the Ohio Natural Heritage Database. It does not fulfill coordination under the National Environmental Policy Act (NEPA) or the Fish and Wildlife Coordination Act (48 Stat. 401, as amended; 16 U.S. C. 661 et seq.) and does not supersede or replace the regulatory authority of any local, state or federal agency nor relieve the applicant of the obligation to comply with any local, state or federal laws or regulations.

Please contact me at 614-265-6818 if I can be of further assistance.

Sincerely,

Debbie Woischke

Mr. Jesse Binau
Clune Consulting Services
PO Box 103
Minster, OH 45865

Dear Mr. Binau:

We have reviewed Natural Heritage Program files for information on rare, threatened and endangered (RTE) species and sensitive habitats for the area of the proposed Ohio River Bridge project connecting Cabell County, WV to Lawrence County, OH.

There is a freshwater mussel bed along the left-descending bank of the Ohio River at the project site. There are no known federally listed species within the bed, but listed species have been documented approximately one-mile downstream. This survey was conducted as thesis research in 2013. Because it was not a presence/absence survey with associated buffers, and does not cover the entire project area, mussel surveys would be required for this project. The Ohio River is a federal mussel stream; therefore, all surveys would require coordination with the US Fish and Wildlife Service.

Other than the 2013 mussel survey, the Wildlife Resources Section knows of no surveys that have been conducted in the area for rare species or rare species habitat. Consequently, this response is based on information currently available and should not be considered a comprehensive survey of the area under review. This response is valid for two years.

The information provided above is the product of a database search and retrieval. This information does not satisfy other consultation or permitting requirements for disturbances to the natural resources of the state, and further consultation may be required. Additionally, any concurrence requirements for federally listed species must come from the US Fish and Wildlife Service.

Thank you for your inquiry, and should you have any questions please feel free to contact me at the above number, or barbara.d.sargent@wv.gov. Enclosed please find an invoice.

Sincerely,

Barbara Sargent
Environmental Resources Specialist

42. Further Description of Important Interior and Exterior Features (Continue on reverse if necessary)

A farmhouse with several barns and most of the original farmland. House faces east, towards river and away from present road. Core is a 3-bay I-house with center door, with transom probably covered. Peculiar facade has wide space between end walls and windows. Side windows are towards the rear. Replacement front entry porch. Corbelled south chimney is original, the north is a replacement. Original 6/6 windows. Off-center rear offshoot with ridge chimney 2/3 from the front, with irregular bays. Two doors on north side,...

43. History and Significance (Continue on reverse if necessary)

This structure roughly corresponds to one indicated on the 1901 map and the 1887 atlas. In 1887 the property consisted of 160 acres and was owned by Madison Forgey. This land has been in the Gillette family since 1809, one of the few families in the area still on its family land. This family of German descent arrived here on a flat boat from Pittsburgh. The original farm...

42. Further Description of Important Features (Continue on reverse if necessary)

This is a two story brick structure in the Italianate style. There is a one bay one story porch on front with original roof though posts are new. The windows are two over two double hung sash with arched upper sash.

At rear is c. 1930 one story, one bay enclosed porch.

The low pitch gable roof has carved wooden cornice brackets.

There is one centrally located chimney.

Interior - the structure has a high degree of integrity. The original staircase, mantels and trim remain.

43. History and Significance Forgey, an entrepeneur in the west, built structure.

44. Description of Environment and Outbuildings There is 19th century frame outbldg. of undetermined use and a new brick garage.

# WEST VIRGINIA HISTORIC PROPERTY FORM CONTINUATION SHEET

Name: Little Seven Mile Bridge
Survey Number: 1
Project / FR#: Little Seven Mile Bridge Replacement State Project #S206-19-3.62
Federal Project #BR-0019(236)E

Statement of Significance

Little Seven Mile Bridge is a common type bridge that has not made significant contributions to the broad patterns of our history. It is therefore ineligible for the National Register of Historic Places under Criterion A.

The bridge is not known to be associated with the lives of significant persons, making it ineligible under Criterion B.

Little Seven Mile Bridge does not embody the distinctive characteristics of a type, period, method of construction, or represent the work of a master, as outlined in Criterion C.

Criterion D is also not met by this structure. It is unlikely to yield information important in history as laid out in Criterion D.
