Project Description

After reviewing the final report for the US 52 / SR 7 Corridor Safety Plan. It is determined that a Feasibility Study is needed prior to plan development for the US 52 @ SR 93 Exit Accessibility Improvement project. This study is needed to address purpose and need, alternatives considered and other pertinent information that is needed on project development especially right-of-way acquisitions and environmental impacts fully. Lawrence County Port Authority and Ohio DOT District 9 will be assisting KYOVA in developing a scope for this study and participate in the review. This study will assist in advancing the project from its current stage to a point that could consider it for a shovel ready design build project - construction is to be determined.
